Brighten Up

"Brighten Up" time is here—the time to clean up about the house, renovate, and make the old things look neat and clean again. We can help you in the work with our line of

SHERWIN-WILLIAMS PAINTS AND VARNISHES.

It is really surprising what a little paint or varnish will do toward brightening up dingy surroundings. Take ***The S-W. Family Paint,*** for instance. This is a linseed oil paint specially prepared for home decorating and painting. With it any one can renew the appearance of a hundred little things that now look worn and old. It dries with a good gloss and will stand scrubbing with soap and water. Comes in 26 attractive shades.

The S-W. Floorlac is another splendid household brightener. It is a stain and varnish combined and can be used on old or new woods equally well. Imitates the natural woods and gives a most pleasing effect.

These offer a few hints for you. Come in and have a "Brighten Up" talk with us and learn more about how we can help you in your Fall cleaning. Our line has a paint or varnish for every purpose.

Remember, we sell

THE SHERWIN-WILLIAMS PRODUCTS

FARMERS UNION BRANCH

In announcing our purchase of Joe Gard's Jersey cows and milk route we wish to say that with the addition to our herd of these rich milkers we are prepared to give our customers milk that cannot be equaled in purity or butter fat content.

Why not get the best? It costs no more; a trial costs nothing. Call us up,—or better, come over and see us, inspect our herd and method of handling the milk—then a trial bottle and we'll all be better satisfied.

Local and Personal

"The Quality Shop" that's us, KING'S.

Ernest Barron spent part of the week in San Francisco on business.

Mr. and Mrs. Jos. B. Gard returned from their Lake county trip last week.

Mrs. Bernice Austin arrived Monday from San Francisco for a visit with relatives.

Mr. G. C. Bradford and family have moved into the John Preston house for the summer.

Miss Adra Eaton is here from Berkeley visiting her mother, Mrs. Kieth and aunt, Miss Lawrence.

Miss Esther Smith arrived home Saturday from Lucia where she has been teaching the past term.

Mr. and Mrs. Ralph H. Hyde spent last week and part of this doing the avenues of the Exposition.

Mr. and Mrs. A. S. Collins and Geo. Parso went to the Jewel City Monday for two days of sightseeing.

Sunday, June 13th, is the date of the Annual Socialist Picnic at Congress Springs. Basket lunches will be taken.

Mr. and Mrs. Guy Farley arrived from Berkeley Tuesday for a two week's stay with relatives. Mr. Farley is taking his summer vacation at this time.

John Preston went to Modesto Wednesday to spend a week with his son. From there Mr. Preston will go to Pacific Grove for several months.

Mrs. Austin and son, Albert arrived last week from Winnemucca to spend a part of the summer with Mrs. Austin's daughters, Mrs. C. P. Herrington and Mrs. Martin Baumgartner.

Mrs. H. C. Smith and daughter, Wilma, and mother, Mrs. C. T. Fawcett are spending the week at Camp Campbell while seeing the Jewel City. Mr. Smith will go up for the week-end.

Mrs. J. E. Palmer, Miss Palmer and Master Elsworth went to Brookdale yesterday to spend two weeks with friends. Mr. Palmer who is hiking in the Big Basin will join his family via the trail.

W. D. Sturtevant and sons, Elwood and Howard, C. B. Miracle and Wm. Wilson motored to Lake Tahoe last week for a "reel" outing. Can't you just hear "Dad" or "C. B." landing one of those twenty-inch finny fighters?

J. E. Palmer, E. E. Lanphear and Jas. Moyle started Monday on a hike to the Big Basin where they will climb a few of the redwoods for exercise before returniag. Special down beds have been ordered for their weary limbs on their return.

L. L. Nattinger of Leigh Avenue, entertained about 160 of his friends Saturday afternoon and evening in the form of a cherry party. His G. A. R. friends were the guests of honor and a royal good time was enjoyed. The evening was spent playing 500.

Mr. and Mrs. Penington, Mr. and Mrs. Ralph Bias of San Francisco were callers at the Alexander Ranch having motored down and taken back with them Mrs. W. H. Busch who came down for the Minnesota Picnic and spent the week-end with Mrs. Alexander.

Raymond and May Campbell of El Paso, Texas who have been attending U. of C. the past year are guests of their friends, Howard and Gladys Bean for the week. The boys in company with Gilbert Newcomb started on a mountain hike Sunday morning expecting to visit Big Trees, Santa Cruz, Mt. Umhum and Loma Prieta and arrive home yesterday.

Mr. and Mrs. Wm. Rice, their two sons, Charles and Harvey, and two daughters, Mabel and Elsie, of Pawnee City, Neb., arrived Saturday evening from the south after visiting the fair at San Diego, for a visit with, Mr. Rice's father and sister, W. J. Rice and Miss Zadie. They will spend a week here at least seeing the Exposition and this valley.

Entertained for Miss Dodge

Mrs. E. R. Kennedy entertained a company Thursday last in honor of her guest, Miss Dodge. One feature of the entertainment was somewhat in the nature of anagrams. The players, blindfolded each drew 10 macaroni letters, and if they could make the words, Clara Dodge, from their selection they scored 100, Clara 50; and other scores for other words. Miss Muriel Palmer and Mrs. Roy Archibald tied, Mrs. Archibald winning the draw, the prize being a box of candy. Dainty refreshments were served.

The guests were the Misses Clara Dodge, Mary Miller, Mary Rodeck, Muriel Palmer, Beth Kennedy, Abbie Gilbert, Dixie Isham and Harriett Conway, Mrs. W. P. Kammerer, Mrs. R. G. Archibald and Mrs. G. B. Marshman.

School Bonds

How The Money Will Be Used

In the apportiontment of the proposed $25,000 bond issue, the school board has planned to use about $24,000 for buildings, school furnishings and equipment. This will include a new building of the modern open-air type, necessary alterations and repairs to fit the old building for use of the manual training and domestic science departments, and suitable outbuildings.

The trustees have considered the subject of new buildings from many different angles. They are also indebted to their friends for much valuable advice. Opinions have been presented, however, from widely divergent points of view. On the one hand we are assured that a feasible building can be erected for much less than the sum asked for; on the other hand we are told that the proposed bonds will not furnish enough money for a first class building. There is at least an element of humor in the situation. Assuming, for the sake of argument, that there is truth in both of these contentions, it is certainly not illogical to conclude that we can get something better than the one, but somewhat less than the other, for $25,000. If we can't make the bonds fit our ideals, we will modify the ideals to fit the bonds.

Nine hundred dollars are to be set aside for the purchase of the four Curtis lots situated on the east side of Fourth Street, directly opposite the present Grammar School grounds. This land will be needed to relieve the congested condition that will prevail on the main Grammar School grounds after the new building is erected. On these Curtis lots will be placed such sheds or out-buildings as are necessary for the accommodation of the school. The school gardens and agricultnral equipment can also be located on the new ground if the voters support the bonds. The price of this proposed land purchase, four lots at $225 each, has been pronounced a bargain by every business man who has given the subject consideration. The trustees have a sixty day option on this property.

The development of modern school instruction is in the direction of utilitarian ideals, such as are expressed in the teaching of manual training, domestic science, and agriculture. For agriculture and gardening on even a small scale we will need more land. It is not likely that such a good opportunity to acquire convenient school ground additions at a low price will ever be offered again.

JOHN D. BLAINE.

Cambrian School History Given

The following history of the Cambrian school was written and read by Joyce Robson at the recent commencement exercises. Joyce was one of the graduates and will enter High School next year.

Cambrian School was started on Feb. 8, 1865. The ground on which the schoolhouse stands was given by Mr. Lewis Casey and the playground was given by Mr. Barker, father of Mrs. Bohnett. One of the men who did much to start the school was a Welshman called David Lewis. He gave a large some of money and did much work on the building for the privilege of naming it. He called it Cambrian after his native Wales.

The first schoolhouse was a wooden building with one large room. Children came from many miles around to attend and near the first there were about sixty pupils enrolled. You may think that Cambrian hasn't grown much since then but at that time the district was much larger than it is now, including Campbell, Valley View and part of Moreland. The first teacher was Thomas Whitehurst who taught for several years.

In Feb. 1911 the schoolhouse we have now was completed. Since then many improvements have been made. The mother's club which was organized a few years ago has helped to improve it in many ways. One thing which has been greatly appreciated during the past rainy winter is a place in the basement where we could heat our lunches.

Other things which we have greatly enjoyed are the croquet and basketball courts. The croquet is chiefly for the lower grades while the basketball is for the higher grades, although a basketball team has not yet been organized we have greatly enjoyed the practice.

The yard has also been improved. Each grade has taken one part for its own special charge and thus have taken more care of the school yard.

The present graduating class will cherish pleasant memories of the many happy hours spent here and now we go forth (to put into) with the determination to put into practice the many good lessons we have received at the hands of our teachers.

Stand Up For Your Own

Herbert Spencer, who was about the brainiest man of his time, was a free trader. He regarded the American protectionist with great scorn. But if Spencer had lived to the present day he would have seen his own country, England, the traditional champion of free trade ideals, turning to protection as a means of industrial salvation.

What is "protection"? In practice "protection" means making some personal sacrifice for the sake of fostering home trade. National protection is accomplished by law, and can be overdone; local protection is the voluntary action of a town's citizens—it was never known to be overdone.

Home trading is right because it pays. It would be incomparably more expensive for everybody to send away for all their goods than to buy all their goods at home. But some folks trade at home only when it's inconvenient to go elsewhere. Don't be one of these. Stand up for your home town and your home town will stand up for you. Be a local "protectionist."?

BIRDS THE FRIENDS OF MAN

Investigation Has Shown the Extent of Their Ravages on Insects That Destroy the Crops.

A recent government bulletin in the interest of bird conservation gives some facts demonstrating their usefulness as insect and noxious weed destroyers that should become general knowledge.

A tree swallow's stomach was found to contain 40 entire chinch bugs and fragments of many others, besides other species of insects. A bank swallow in Texas devoured 68 cotton boll weevils. Thirty-five cliff swallows had taken an average of 18 boll weevils each. Two stomachs of pine siskins from Haywards, Cal., contained 900 black olive scales and 300 plant lice. A killdeer's stomach taken in November in Texas contained over 300 mosquito larvae. A flicker's stomach held 28 white grubs. A night hawk's stomach collected in Ketucky contained 34 beetles, the adult form of white grubs. Another night hawk from New York had eaten 24 clover leaf weevils and 375 ants. Still another night hawk had eaten 340 grasshoppers, 52 bugs, three beetles, two wasps and a spider. A bobtailed grackle from Texas had eaten at one meal about one hundred cotton boll worms besides a few other insects. A ring-necked pheasant's crop from Washington contained 8,000 seeds of chickweed and dandelion heads.

The quail, between his cheery calls of "Bob White," is busy consuming 135 varieties of insects. He will eat on an average 75,000 insects and 6,000,000 weed seeds a year. He is the natural enemy of the boll weevil and the potato bug and the best friend of man, who is trying to destroy him in nearly every state.

In fact, there are few birds that are not the friends of the farmer, paying him many times over in the destruction of insects and noxious weed seeds for the small amount of toll they take from his crops.

Singing While in Danger.

Though there is no definite rule laid down in the British naval regulations, yet it has become an unwritten one for the officers to instruct their men to sing when they are in great danger, as for instance, when their ship has been mined or torpedoed and is sinking.

Thus many of the men on board the Formidable went bravely to their deaths singing "Tipperary." A popular song, as a rule, is ordered to be sung because most of the sailors know it, and collective singing puts more heart in them and helps them to hang on as long as possible till help comes.

Some years ago some sailors from the Vernon were blown up in Portsmouth harbor. It was in the middle of January, and an icy blizzard made things worse than usual. The lieutenant in command, who was swimming in the water, yelled out to his men, who were also battling for their lives, "Sing 'Bill Bailey,'" and probably that once popular song was never sung under stranger conditions. It is said that the lieutenant swam round and punched the heads of those who weren't singing!—Pearson's.

Much Unknown About Marbles.

Though the western part of Vermont includes the most extensive marble industry in this country, the eastern part is a virgin field where, in the lack of a general study of the stratigraphy, the structure, the paleontology, and the areal geology, it is at present not only impossible to determine the area and position of many of the beds, but also even the thickness of some of the marble formations which are but partly exposed. The marbles of eastern Vermont, many of which are dolomitic, vary widely in kind and character, and the outcrops, though few in number, are scattered from the Massachusetts line to the Canadian boundary. Many of the marbles are suited only for indoor ornamental use. The greater part of the ledges are to be classed as mineral reserves which will be drawn on in the future.

A Half-Cent Coin.

In these times, when every little that can be saved on the living expenses of the poor counts, I would suggest that the United States government coin a half-cent, which would be of great benefit to those who must count every cent of expenses.

For instance, if one wished to buy a half-pound of coffee, at 25 cents a pound, one would be obliged to pay 13 cents; with a half-cent piece in use there would be a saving of half a cent. There are many other things, too numerous to mention, that could be bought by poor people, especially fruit. One often sees apples and bananas sold two for one cent. If a poor person had a half-cent he could buy one, when he did not need two.—New York Times.

To Iron Linen.

An excellent way to iron table linen is first to dry it thoroughly in the air. Then dip it into boiling water and put it through the wringer. Each article is then folded in a dry cloth and allowed to remain there for at least a couple of hours. Irons must be hot, but not scorching, and the linen ironed perfectly dry.

Powerful Strassburg

THE world has awaited, with dread, the time when the French armies might reach the environs of Strassburg and begin to bombard that ancient capital of Alsace-Lorraine, because then one of the most marvelous works of civilization will be exposed to destruction or great damage. This is the cathedral of Strassburg, an architectural glory, "one of the choicest Gothic visions ever dreamed of by a master mason."

During the war of 1870 the Strassburg cathedral was rather badly damaged. The French established a military signaling station in the immediate vicinity, which drew the shell fire of the Prussians. As a result, the magnificent spire was torn from top to bottom, and one projectile, grazing the cross on the top, bent it sidewise. This happened on the 24th day of August.

No sooner was the war at an end, however, than the Germans set about the business of repairing the damage thus inflicted. The task occupied ten years, being not completed until 1880.

Dates From the Eleventh Century.

It is an interesting fact that this celebrated structure occupied the site of an ancient heathen temple dedicated to Hercules. Indeed, the image of the god is known to have been preserved within its walls, as a historic memorial, up to the year 1865, when it disappeared—just how is not satisfactorily explained. The heathen temple was demolished in the fourth century A. D.

The Christian fane that took its place was of wood in the seventh century; later it was of stone. It was the houses in narrow streets (dating back to the middle ages) being embellished with wonderful wood carving. The city is connected with the Rhine (two miles to the east) by canals. It is a center of high roads between Germany, France and Switzerland and at the junction of other canals which connect the Rhine with the Marne, and the Rhone with the Rhine. The place is the seat of the imperial governor of Alsace-Lorraine and the headquarters of the Fifteenth corps.

Like Metz, Strassburg was in former days governed by a prince bishop. But in the thirteenth century the then German emperor made it a free city. It had at that time 50,000 inhabitants—a population deemed huge—and, being a very important trade center, it was already rich and prosperous. Then it was that the principal facade of the great cathedral was built.

One of Town's Features.

Strassburg, like Metz, was an ancient Roman military post. The Romans called it Argentoratum. It is today enormously strong, being defended by 14 forts and inner ramparts. There are also great works for flooding the approaches, as an additional discouragement to an enemy.

An interesting feature of Strassburg is the great number of storks which build their huge nests on the chimney pots. Oddly enough, these birds never seem to establish themselves for breeding purposes anywhere except on human dwellings. Nobody would ever think of disturbing them in any way. On the contrary, a householder thinks it a great sign of good luck if a stork picks out his roof top

GUTENBURG PLATZ

partly or wholly burned half a dozen times (destroyed by lightning in 1002), and as often rebuilt. As it stands today, it was completed in 1839; but the oldest portion dates from the beginning of the eleventh century. It is considered the noblest creation of ecclesiastical architecture in Germany, its only rival in that country being the equally famous cathedral of Cologne.

The astronomical clock which adorns this cathedral is the most celebrated timepiece in the world. It dates back to 1352, and originally was graced with statues of the three wise men and the virgin in wood, together with a cock. At the stroke of every hour the wise men bowed before the virgin and the cock crowned and flapped his wings.

It contains a perpetual calendar, indicating all the various holy days (movable feasts), such as Easter, and regulates itself in leap years. It shows the movements of the planets, the phases of the moon and eclipses of the sun and moon calculated for remotest times. Figures representing the four stages of life, grouped around a figure of Death, strike the quarter hours. Childhood strikes the first quarter, Youth the second, Manhood the third and Old Age the fourth. Death strikes the hours, while an angel, seated above, turns round an hour glass which he holds in his hand.

At stroke of 12 the apostles appear in single file and pass before a figure of Christ, bowing. The Savior blesses them by raising his hand, while the cock crows and flaps his wings three times.

Strassburg Once a Free City.

Strassburg marks the locality where the River Ill divides into five branches. It has 125,000 inhabitants, and the old part of the town is most interesting to the sightseer, some of for a nest. It is very curious to see them teach their young to fly.

Toward the end of August all the storks start on the same day southward, bound for their winter quarters in Africa. In March they return, preceded a week or so by a single stork pioneer, and their arrival is always hailed with joy. Apparently they invariably take up the same nests year after year.

Outdoor Living.

Living much out of doors, in the sun and wind, will no doubt produce a certain roughness of character—will cause a thicker cuticle to grow over some of the finer qualities of our nature, as on the face and hands. So staying in the house, on the other hand, may produce a softness and smoothness, not to say thinness of skin, accompanied by an increasing sensibility to certain impressions. Perhaps we should be more susceptible to some influences important to our intellectual and moral growth if the sun had shone and the wind blown on us a little less; and no doubt it is a nice matter to proportion rightly the thick and thin skin. But methinks that is a scurf that will fall off fast enough—that the natural remedy is to be found in the proportion which the night bears to the day, the winter to the summer, thought to experience.—Thoreau.

British Schoolteachers.

There are in England and Wales 41,835 male elementary schoolmasters including the certificated, the uncertificated, and the student teachers. Of these there were 4,000 certificated men with the colors at the end of September, and there are now well over 5,000, or 12½ per cent of the men under thirty-five and of the fit men perhaps as much as 40 per cent.

MAKING BEST USE OF NUTS

They May Be Employed In Innumerable Ways, and Are Nutritious and Appetizing.

Nuts add attractiveness and nutrition to many a plain dish. They are especially valuable for the school luncheon basket, as they make tempting sandwich fillings when combined with chopped celery, olives, fresh and dried fruits. They give the same nutrition as does meat. They give the needed touch to a pudding, dessert, cake filling or salad. Consequently we are including the toothsome nut meats more plentifully in the various cooked dishes.

Buy nuts in the shell whenever possible, as it is a much safer plan, but if you are obliged to get nuts that are shelled subject them to the following treatment to free them from any germs that may be lurking round them. Place them in a colander and pour boiling water over them very quickly, and at once immerse in very cold water, then drain and wipe dry in a folded napkin. This does not affect the oils and crispness of the nut meats if it is done quickly.

Choose almonds with thick shells, as they have the richest and sweetest meats. To blanch them, pour boiling water over them, turn them upon a clean towel and rub the brown skins from them. To extract pecans whole from the shells, pour boiling water over them and let them stand until cold. Crack them at the small ends. The kernels of English walnuts that are a trifle rancid for use can be sweetened if boiling water containing a pinch of soda is poured over them. Rinse in cold water and dry in the sun.

TO SERVE WITH BOILED FISH

Sauce That Is Exceptionally Good, Recommended by One of the Best-Known Chefs.

Fish sauce is almost more important than the fish. This is something good: Take the yolks of two eggs, one cupful of brown sauce and one tablespoonful of vinegar or lemon juice. Make the brown sauce by browning two tablespoonfuls of butter in the frying pan, stir in a tablespoonful of flour, salt and pepper and add a cupful of the water in which the fish was boiled, and boil until it thickens. Beat the yolks of the eggs and stir the hot brown sauce into it. Put it on the stove and let it boil a minute or two, add the vinegar or lemon juice and serve hot with the fish.

Here is another delicious recipe for a sauce to serve with boiled or steamed fish: Melt three tablespoonfuls of butter, add three tablespoonfuls of flour and stir until well blended. Then pour on gradually, while stirring constantly, one cupful of white stock and one-half cupful of cream. Bring to the boiling point and add one-fourth cupful of blanched and shredded almonds, eight olives (stoned and cut in quarters), one-half a tablespoonful of lemon juice, one teaspoonful of beef extract, one-half teaspoonful of salt and a few grains of cayenne.

Pilgrim's Plum Pudding.

One-half of five-cent loaf of bread, broken in pieces and soaked in three cupfuls of milk until soft, then add one cupful of raisins washed and seeded, one teaspoonful of salt, yolks of two eggs and one whole egg (or use the whole eggs if you wish), one cupful of sugar and one cupful more of milk, small piece of butter. Butter a pudding dish well and turn mixture in, set in pan of water and bake in very slow oven three hours, then turn over pudding one cupful of cold milk and bake several hours more, remembering to keep well covered, and not have water boil out of pan, and have very slow oven. Add spices if liked.

Water Bread.

Four cupfuls of boiling water, two tablespoonfuls each of butter, lard and sugar, three teaspoonfuls of salt and one yeast cake dissolved in a quarter cupful of lukewarm water; 12 cupfuls of flour. Put butter, lard, sugar and salt in mixing bowl or pan and pour on boiling water. Let stand until lukewarm; add yeast and 11 cupfuls of flour. Mix thoroughly with knife or mixing spoon, then add remaining cupful of flour and knead. Cover and let stand over night in a warm place. Shape in loaves in morning and rise. Bread should continue rising for 15 minutes of baking; then it should begin to brown.

Mock Pumpkin Pie.

One cupful sifted prune pulp, two eggs well beaten, pinch salt, small piece butter about size of walnut, one-half teaspoonful each of ginger, cinnamon, nutmeg and one-half cupful sugar. If not sweet enough add more, as some prunes are not so sweet as others. One pint of milk, heated to almost boiling point. Bake with one crust like pumpkin pie. This will make two small deep pies or one large deep pie. Steam one pound prunes about three hours before sifting them.

No Greasy Smell.

Many a good cook will be surprised at the excellent results obtained by the use of a raw turnip for "greasing" the pancake griddle. Cut the vegetable in two and rub the griddle with the raw surface and then bake the cakes in the usual way. The cakes are beautifully browned, and there is no greasy smell or smoke.

To Drive Away Roaches.

Common bracken fern laid down in places frequented by cockroaches will drive them away.

HUNTER USES CATS

Says They Are Valuable as Well-Trained Dogs.

Mississippi Man Declares He Has Trained Them to Point and Retrieve Small Game in a Perfect Manner.

Ever go hunting with domestic cats? This question is meant seriously. T. G. Nimmo of Sturgis, Miss., a hunter of much renown in his state, does this very thing—and says it is great sport. He has trained his cats until they trail, point and retrieve small game as well as any dog. Although they have tracked and helped to kill opossums and raccoons, the felines are used principally in hunting rabbits, squirrels and quail.

Mr. Nimmo says that on sight of game they assume rigid position, like that of a pointer, except that they move their tails slightly, and wait for him to come and shoot the game they have found. Never, he says, have they rushed forward to kill the game or to stalk it. When Mr. Nimmo shoots they retrieve the fallen game, and if it is not dead, kill it by biting it in the neck.

"Tom and Jerry," says Mr. Nimmo, "will follow me like dogs for miles through the woods until they see or scent a rabbit or squirrel. Then they squat down close to the ground, wag their tails from side to side, and remain motionless until I see the game and shoot. Then they dash forward, seizing the animal or bird and hold it until I arrive."

Gaining on Tuberculosis.

According to a census bureau report just issued the death rate in the United States in 1913 was about one-fifth of one per cent greater than in the year before, but for the same year the deaths from tuberculosis dropped from 149.5 in the 100,000 to 147.6. That is to say, the general death rate rose a little, while the rate from tuberculosis fell perceptibly in the same period. Tuberculosis is the disease which has attracted the greatest amount of public attention, and the one against which preventive measures have been most vigorous of late years. The people understand the danger, know something about how to avoid it, and are treating the prevention of the disease as a public problem. The figures which the census bureau gives are evidence that they are succeeding and should give new courage to the fight not only against tuberculosis but against preventable disease of all kinds.—St. Louis Republic.

Tin Grows Scarce.

With regard to the future use of tin, it may be said that we are dealing with the one metal whose known ore reserves are entirely inadequate to even the present demands, and that unless some new source of supply is developed very soon we may expect to find that tin is a very scarce metal indeed. Of the present sources of tin supply, most are either stationary or receding in output, Bolivia being the only one which gives promise of permanency and of future growth. Under these conditions the question of substitute metals becomes of importance and aluminum, zinc and steel all have some possibilities in this direction in one way or another.—Engineering Magazine.

An Odd Idea.

"To him who keeps his ears open, ideas come from the most unexpected sources."

The speaker, William J. Burns, was lecturing on "Alcoholism and Crime," in Pittsburgh. He resumed:

"Thus, on the way hither this evening I passed two ladies, one of whom was limping slightly. As I walked by the limping lady groaned:

"'These shoes certainly do hurt. They're too tight.'

"'Well, dear,' said the other lady, soothingly, 'shoes are like husbands—better a bit tight now and then than too loose.'"

Soldiers May Smoke Good Cigars.

The German soldier is being provided with "smokes," the German Red Cross society having placed boxes in prominent places of the country's big cities into which those who wish can drop cigars for the boys at the front. The boxes are labeled "Cigarren fur unsere krieger." Thousands are said to be collected daily. They are immediately shipped to the battlefields and the trenches to comfort the men who fight.

SOMETHING TO SMILE AT

HE WAS SWEET-LOOKING COP

Humble Maid Servant Expresses Admiration for General Wood, Chief of Staff of the Army.

Gen. Leonard Wood, chief of staff of the United States army, has had many expressions of admiration voiced as to his personal appearance. It remained, however, for a humble maid servant to apotheosize his looks.

A young girl—who, knowing the general, worships him as her hero—always keeps a photograph of him in uniform on her dressing table. One day, entering her bedroom suddenly, she chanced upon her newly acquired maid, who stood agape, with gleaming eyes, holding the photograph in her hand.

Startled into speech, the servant asked:

"What's he, miss?"

"He's an officer, Norah." The young mistress deemed that answer sufficient.

"Gee, miss," was the breathless comment as the maid put down the picture lingeringly; "but ain't he the sweet-lookin' cop!"—Neale's Monthly.

SHE ATTRACTED THE COPPERS.

Mrs. Oldwed—Why did you pick out such a pretty cook?

Mrs. Newwed—My husband is away a great deal, and I wanted to have police protection.

Convincing Proof.

"How can you tell whether a man has been married only a short while, or long enough to get used to it?"

"You can tell that very easily by observing how he says, 'I have a wife to provide for.'"

"Yes?"

"If he says it proudly, he hasn't been married long, but if he says it with an air of deep dejection you may be sure that the iron has entered his soul."

Doubtful.

"How would you like to be a wounded French soldier from the trenches, convalescing in a luxurious Paris hotel, which had been converted into a military hospital, and with a beautiful nurse to wait on you who was probably a nobleman's daughter?"

"No doubt that would be fine, but I don't believe I would enjoy heaven much if I had to go through hell to get there."

Getting Serious.

Mr. Newpop (2 a. m. at the phone)—Hello, doctor! Can you come down and see the baby right away?

Doctor—What seems to be the trouble?

Mr. Newpop—I—I'm not quite sure, but I think he has insomnia.

Deserved Punishment.

"Did you ever have a desire to go on the stage?" asked the man who had a minor part in the show.

"Oh, yes," replied his neighbor. "The first time I ever saw you try to act I did."

Used to Growling.

Mrs. Myles—What has become of that nurse you used to have for your pet dog?

Mrs. Styles—Oh, she's married.

"She ought to get along all right. She's used to growling."

Seemed So.

Bacon—I see the human family is subject to about twelve hundred different kinds of disease and ailments.

Egbert—Well that can't be right, for my wife has over twelve hundred ailments alone.

A Scarecrow.

Bill—I see a woman who conducts a farm near Los Angeles wears male clothing when at work.

Jill—That possibly saves the trouble of putting up a scarecrow.

REAL ESTATE

DO YOU WANT TO BUY, SELL OR EXCHANGE A LOT?

We buy, sell and exchange business and residence lots, or equities in same, located in any San Francisco, Oakland, Berkeley or Richmond subdivisions. We also furnish free information regarding valuations of lots located in the Bay Cities. Bay Cities Real Estate Exchange, Main office, 660 Market St., San Francisco, Cal.

Wouldn't Be Snubbed.

A man who visits my home quite frequently was wont to tease my two-year old niece. One morning while she was breakfasting at my home he came in and paid no attention to her. She felt rather slighted, and after watching him for a few moments remarked: "I'se heah."—Exchange.

Unquestioned Antiquity.

We never did like the mother-in-law joke, but have learned to respect it because of its great age. The joke was a distinguished contemporary of Methusaleh, and as we all know, has survived that ancient citizen by something more than two thousand years.—New Orleans States.

IS EPILEPSY CONQUERED?

New Jersey Physician Said to Have Many Cures to His Credit.

RED BANK, N. J.—(Special).—Advices from every direction fully confirm previous reports that the remarkable treatment for epilepsy being administered by the consulting physician of the Kline Laboratories, of this city, is achieving wonderful results. Old and stubborn cases have been greatly benefited and many patients claim to have been entirely cured.

Persons suffering from epilepsy should write at once to Kline Laboratories, Branch 190, Red Bank, N. J., for a supply of the remedy, which is being distributed gratuitously.—Adv.

The Telephone.

Alexander Graham Bell is the inventor of the telephone. The wizard of Menlo Park greatly improved the wonderful instrument, but the glory of the invention belongs to Bell. It has been so decided time and again.

Don't Humor Superstitious Whims.

Applications for the renumbering of three houses bearing the fateful number 13 have been declined by the record committee of the London county council.

Salt Will Save Your Hay

MAKE 5 TONS EQUAL 6

The salt more than pays for itself in the weight of the hay. There is a further gain in weight through moisture held—and the stock will eat up salted hay clean where unsalted hay will be mussed over and wasted. Twenty pounds of salt should be used to each ton of hay. Stack three feet of hay, sprinkle the salt over this by hand, then another layer of hay, more salt, and so on.

The same directions apply when baling hay.

SALT

Increases Weight.

Prevents Musty Hay.

Cattle Thrive on It.

Have you ever lost a crop of hay through musting—or your barn and hay through spontaneous combustion?

Use Salt

when you stack the hay.

Leading dairymen use salted

Alfalfa Hay

all the year round for feeding dairy cows, to increase the flow of milk.

THEIR ALIEN CHILD

Pa and Ma Failed to Understand Where Ruth's Real Strength Lay.

By DONALD ALLEN.

(Copyright, 1915, by the McClure Newspaper Syndicate.)

Josiah Streeter was unusually sturdy and strong, and he was very proud of the fact.

His wife was unusually sturdy and strong, and she was proud of the fact.

Farmer Streeter could twist a barrel of cider around as easily as a city tailor could his goose. He could shoulder a bag of flour at the gate and carry it into the house without breathing faster. He could lift a yearling calf over a rail fence, or hang up a dressed hog to cool no matter what the weight.

The wife had never been heard to say that she was tired, and had she asked the husband to move a bureau or lift the soap kettle off the fire it would have been a matter of great surprise.

When a man hired out to Farmer Streeter he must be a strong man. If he couldn't work sixteen hours a day and not get tired he was put down as a weakling and advised to look for a job in a clothespin factory.

It was into such an atmosphere that Ruth Streeter was born, and her coming was a disappointment to her parents and a wonder to others.

"Why, she's a dwarf!" exclaimed the father.

"Oh, she'll grow, but she'll never be strong," replied the mother.

"You can't hear her squall more'n a rod away."

"I know it."

"If she has the measles or the whooping cough, she'll be a goner, sure."

"Yes; she won't last three days."

"And what are we going to do about it?"

"Why, Josiah, we can't kill her!"

"Noap, of course not, but why couldn't she have been a bouncer instead of a little runt?"

Very early in her young life Ruth betrayed the fact that she was going to be a Streeter only in name. The father and mother had loud voices; the child spoke softly. Most children of her age would have been roaming the fields or climbing trees, but this one had more interest in pictures found in the few books in the house. The hired man would have made a pet of her, but her look of dignity kept them at a distance.

When old enough to be sent to the district school, and after she had been a pupil for a couple of weeks, the teacher called at the farmhouse.

"You must not let Ruth study her lessons at night. She is so anxious to learn that she will overtax her brain," he said.

"Don't she look frail to you?" was asked.

"She seems to be perfectly well, but she's never going to make a strong woman."

"That's what her father and me are afraid of."

"Afraid?"

"Yes—that she'll grow up to be a lady instead of knowing about housework! How much education should she have?"

"Just as much as she can get."

"But we can't have a lady in the house!"

"But Ruth is going to grow up and get married and leave you. Don't you think it will help her to get a better husband if she's a lady and well educated?"

That evening the matter was talked over between the parents, and the father said: "I can see a heap of trouble ahead for us, but it can't be handled just now. Does Ruth know that you can handle a forty-pound feather bed with one hand?"

"She has seen me do it, and didn't seem to care."

"Does she know that you can bring two big hams from the smokehouse at once?"

"Yes, but she don't praise me."

"Has she been told that I can hoe more corn in a day than any man in the county?"

"Yes, I told her."

"And that I can lift a barrel of cider?"

"Yes."

"And that I won a prize pitching hay?"

"I have told her all this," sighed the wife.

"And she—she—"

"She asked why we didn't have more books in the house!"

It was queer enough that Ruth should be one of the family and not of the family. There was disappointment on the side of the parents—there was a strangeness on her side.

"Ma, the Lord sent that girl to the wrong house!" said the father at last.

"I've sometimes thought so," was the reply.

"And so has she, but nobody's to blame as I can see. She's here, and she's sorter useless, but we've got to bear the burdens the Lord puts upon us."

At fourteen Ruth was sent to the village school. After two years she was sent away to a boarding school. Not because her parents had changed their minds about her being "sorter useless," but as Farmer Streeter had observed as he sat before the fire one evening: "Ma, I'm not complainin' about Ruth any more."

"No, you ain't, pa."

"I said once that the Lord brought her here."

"Yes."

"Well, I'm leavin' it to him to bring it around as he thinks best. I wish she had taken to sewin', patchin', makin' bread and cuttin' carpet rags, but as she didn't, mebbe she was sorter told to go the other way. How's her eddecation comin' on?"

"I ain't asked her many questions and she ain't told me much, but Parson Davis told me the other day that he heard she was one of the smartest girls in school. She'll be finished up this fall, you know."

"And then come back to us?"

"Yes."

"And then—then—" he queried after a time.

"I dunno, Josiah—I dunno!"

They had a world circumscribed by the farm limits. They knew what went on in their world, but not in the other. It was work, work in their world. There were four seasons in a year, and particular work for each season. They awoke at just such an hour; they went to bed at just such an hour. Their meals seldom varied. They plowed and dragged and sowed and planted. They gathered the crops. The farmer gave exhibitions of his strength and boasted of his health, and the wife boasted of the soft soap she had made, and her jars of pickled peaches she had put by.

Work, work, work, and never recreation! They judged no one by their talk or intelligence, but it was always:

"Why, that fellow wouldn't be worth his salt in a harvest field!"

One day the farmer came home from town with a stranger in the wagon with him.

"His name is Durand," he explained to his wife, "and he says he paints pictures. He wants board and lodgings for the winter, that he may paint some winter scenes. He says he will pay our price and give little trouble.

"He'll turn up his nose at corned beef and salt pork, won't he?"

"If he does he'll have to go. He looks kinder pale and sickly, and I don't believe he can throw a cat over the fence, but we'll let him come if you say so."

And thus it happened that when Miss Ruth returned home she found Mr. Charles Durand, artist, from the city, duly installed and at work on a sketch of late autumn.

"I wouldn't give him his board for what corn he could husk," whispered the father that evening.

"Why, he don't know enough to put a collar on a horse," added the mother.

It was a week or more after her return home that Miss Ruth told her parents that she had heard of Mr. Durand, and that some of his paintings had sold for twice the value of their farm, and that she had made fair headway as an amateur artist and wished to take lessons of him.

The father groaned and the mother sighed.

"Father," said the girl, "you have owned this farm for twenty years. You have worked like two oxen—you and mother. How much better off are you than when when you began?"

"Two thousand dollars," he proudly replied.

"You have worked with your muscle, father, and you have made a hundred dollars a year. A young man will go through college in three years, and then by use of his brains make from three to five thousand a year. You have a contempt for the man who can't life a barrel of cider, and yet he may make more money in a week than you have in a year. Doctor Grey cannot lift a hundred pounds, but when your hired man broke his leg the doctor's bill was $40."

Neither father nor mother had a word to say and the girl continued:

"You have been disappointed in me because I am not a big, strong, husky girl and don't take to housework. It took me less than a fortnight to make some sketches over at Brownsville that I sold for one hundred dollars."

"Gosh!" exclaimed the father.

"There isn't a lawyer in the state that can hold a plow for a hundred feet, and yet the poorest one of them makes ten times the money you do. You have thought me helpless and useless. You have thought all people so not made of iron."

"Yes," admitted the father, "sorter useless, and now I can realize that me and your ma have been sorter fools all the time."

When a fine landscape is signed "Durand" it isn't always the work of Mr. Charles Durand. It may be the creation of his wife, Mrs. Durand, formerly Ruth Streeter.

And father and mother don't have to work any more.

Treatment for Deaf and Dumb.

Deaf babies sent to the Utah school for the deaf, dumb and blind at Ogden, will, after this year, be segregated from the older children and kept in a new dormitory and kindergarten. Superintendent Driggs and the state board of trustees decided to use this effort to prevent the babies from learning the manual or sign language used by the older children. The school authorities believe that in this way they will be better able to teach the children to understand conversation by the lip method, and that they can be taught how to speak in the same manner by which Helen Keller was taught.

Casualties.

Probably nobody yet grasps the significance of casualties running into the millions. If they are published in Hades—which is the most suitable place for them—Tamerlane must be quite crestfallen as he contrasts them with his own amateurish exploits.

If this war is civilized we prefer the savage sort, as being, on the whole, a lesser affliction.—Saturday

Pay Day in the Trenches.

The pay department of the British army now employs nearly 700 officers and about 7,000 clerks. This is nearly ten times as many people as were required for the work in times of peace. The housing of the constantly growing staff of the paymaster's office was one of the first difficulties, and the London main office has moved twice since the war begun. Lately it has taken to adding private houses to its office area. Much of the time since the first of August the whole army pay organization has worked day and night.

The soldier receives his pay, if he wishes it, not only at the front, but even in the trenches. The cash, in French currency notes, is issued by his company officer in the field, and is accounted for on the so-called "acquaintance rolls." Every soldier carries his paybook right through the war. As far as possible he is paid weekly. Men in the advanced trenches draw their pay almost as if they were in the barracks at home.

"C'etait Le Roi!"

The mere exhibition of himself to the men in the trenches is not enough for King Albert of Belgium. He fights as his men fight, and he moves about among them without the brilliantly uniformed staff or bodyguard that traditionally surrounds the king.

Here is a story, ringing with the clear note of imperishable romance; it is told by a Belgian soldier in the Nieuwe Rotterdammer Courant:

"I was in the trench, and my brother-in-law was some yards from me. Between us there was a tall officer without arms, and silent. Suddenly a shell burst near us. My brother-in-law was struck by a splinter, and fell in a heap at my side. The tall officer took up the rifle and continued the shooting. Then he slowly left the trench. His extraordinary calm struck me. I ceased to fire and turned to him. He also turned to me. . . . Mon Dieu! C'etait le Roi!" (It was the king.)—Youth's Companion.

Riley's "Lost" Works.

The search for the "lost" works of James Whitcomb Riley, which has been carried on for almost a year in connection with the preparation of the first complete collection of his works in prose and poetry, has brought to light a great mass of material of which little or nothing was previously known. More than two hundred hitherto unpublished poems were discovered. One of the most typical of the Hoosier poet's works dating back to the earlier days of his career is an illuminated manuscript of a poem entitled "Man's Devotion." Another interesting find was a baby book containing pictures of the child friends of the poet. He wrote a poem to each of the little portraits.

Asleep Indeed.

From the French trenches in Alsace comes a tale of a soldier who awoke one morning after a sound sleep, complained of a cramp in his thigh, and said that he could not get up. At first his superiors insisted that he do so, but as he steadfastly refused, they sent for a doctor. The latter found that a bullet had come through the roof of the soldier's shelter during the night and had lodged in his thigh. It had not even waked him up!

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Pellets. Tiny, sugar-coated granules.—Adv.

"Corpse" Snored; Arrested.

When George Russell arrived in Atlanta from Birmingham he imbibed a bit too freely, and growing sleepy about the eleventh hour of the night, wandered into Greenberg & Bond's undertaking establishment at the corner of Ivy and Houston streets, picked out a nice, soft spot near the cooling board and disposed himself for an evening's rest, records the Atlanta Journal.

Employees of the place were awakened in the early dawn by the rumble of Mr. Russell's snores. Such sounds were unusual. They investigated found Mr. Russell, and telephoned the police to come get him. Mr. Russell finished his nap in the patrol.

YOUR OWN DRUGGIST WILL TELL YOU Try Murine Eye Remedy for Red, Weak, Watery Eyes and Granulated Eyelids; No Smarting—just Eye Comfort. Write for Book of the Eye by mail Free. Murine Eye Remedy Co., Chicago

Art Connoisseur.

Mrs. True Genteel—"Good morning, Mrs. Carrots. Going to New York to do a little shopping?" Mrs. Gusby Carrots (whose husband has acquired sudden riches)—No, I've just returned. I bought a nice Rubens this morning, and I declare, when I called at my husband's office he told me he had bought a Rembrandt by the same artist yesterday afternoon."—Washington Star.

Proved by Experiment.

One of the young ensigns who was acting as teacher on the battleship Texas asked the question: "What are the two principal parts of a sentence?" expecting to get the answer, 'Subject and predicate." An old salt scratched his head in perplexity, and at last replied, "Solitary confinement and bread and water."—The Sailor's Magazine.

The Reason.

"What a fuss that youngster makes about his attire."

"Well, when a young fellow is in his salad days, you mustn't blame him for being particular about his dressing."

Boils Biliousness Malaria Constipation

Are You Troubled?

Dr. Pierce's Golden Medical Discovery

Perhaps this case may be similar to yours

J. Wesley Tilly of (Box 673,) Selma, Cal., writes:

Gentlemen:—"It gives me much pleasure to be able to send you a testimonial, if by its reaching some sufferer your medicines will do as much for him as they have for me. At the age of fourteen I was troubled a great deal with malaria and biliousness, accompanied with the worst sort of large boils. I was persuaded by my parents, who have always been strong believers in Dr. Pierce's remedies, to try the **Golden Medical Discovery.** I took one bottle and the boils all disappeared, but I did not stop at one bottle, I took three and the malaria all left me and I have had no more boils to this day, thanks to the 'Golden Medical Discovery' for my relief.

"Following an operation for appendicitis two years ago I was troubled very much with constipation and I have been trying Dr. Pierce's Pleasant Purgative Pellets and they have rid me of the troublesome gas and have aided me in conquering the whole trouble; thanks again for the 'Pellets' and for the advice I have obtained from The People's Common Sense Medical Adviser." Send only 31 cents for this 1008 page book.

for over forty years has been lending its aid to just such cases as this. In our possession we have thousands of testimonials of like character.

Perhaps you are skeptical, but isn't it worth at least a trial in view of such strong testimony? Isn't it reasonable to suppose that if it has done so much for others it can do as much for you?

Your druggist will supply you in liquid or tablet form, or you can send 50 one-cent stamps for a trial box. Address

Dr. V. M. Pierce, Buffalo, N. Y.

TYPHOID is no more necessary than Smallpox. Army experience has demonstrated the almost miraculous efficacy, and harmlessness, of Antityphoid Vaccination. Be vaccinated NOW by your physician, you and your family. It is more vital than house insurance. Ask your physician, druggist, or send for "Have you had Typhoid?" telling of Typhoid Vaccine, results from use, and danger from Typhoid Carriers.

THE CUTTER LABORATORY, BERKELEY, CAL.

PRODUCING VACCINES & SERUMS UNDER U. S. GOV. LICENSE

Baked Spare Ribs.

Anyone that likes spare ribs will find this an improvement over boiling them. Put spare ribs in cold water and let cook for almost an hour. Into a baking dish put a layer of raw sliced onions. Lay the spare ribs on this and finish dish with another layer of onion and the top layer of potatoes. Add enough hot water to half fill dish and bake one hour, covered the first half hour. Serve with boiled cabbage.

Banana Salad.

This is a very nourishing dish, easily prepared at a few minutes' notice. Peel and scrape ripe bananas. Cut each one in two pieces and cut off the sharp end, making them look like a croquette. Roll them in chopped nuts of any kind—either peanuts, hickory nuts or walnuts. Lay on a leaf of lettuce and serve with a little French dressing containing a great deal of olives.

Casserole of Rice and Meat.

Two cupfuls chopped meat, pepper and cayenne, one-quarter cupful bread or cracker crumbs, one-half teaspoonful salt, celery salt, one beaten egg, hot water or stock to moisten.

Line a buttered baking dish with cooked rice one-quarter inch thick. Pack mixture in and cover with rice. Steam or bake 30 to 40 minutes. Invert on a platter and surround with tomato sauce.

Sugar Potatoes.

Six sweet potatoes, one cupful white sugar, one-half cupful water, one teaspoonful butter. Parboil, peel and cut potatoes into quarer-inch slices. Cook the other ingredients to form a sirup. Place the slices of potato in the sirup and simmer gently for an hour, then let the sirup boil away until it is almost dry. Serve with meats.

DON'T GET RUN DOWN, Weak and miserable. If you have Kidney or Bladder trouble, Headache, Backache, Dizziness, Nervousness, and feel tired all over, get a package of MOTHER GRAY'S AROMATIC LEAF. It never fails. Sold by all Druggists or sent by mail for 50c. Sample sent FREE. Address, The Mother Gray Co., Le Roy, N. Y.—Adv.

Daily Thought.

What we want is the old spirit of our forefathers; the firm conviction that not by criticism, but by sympathy we must understand; what we want is more reverence, more love, more humanity, more depth.—F. W. Robertson.

Her Criticism.

Wee Mabel had a little disagreement with her grandmother one day. She was relating the affair next morning to her parents and in conclusion she said with a sigh, "Well, grandma is certainly a very tweer lady."

Just Getting Wise.

Senator Borah of Idaho recently bought a motor car. Borah had never before undertaken to operate any mechanical device more complicated than a monkey wrench or a wheelbarrow. After he had succeeded in reaching home without getting maimed he took a long breath and remarked solemnly to his wife:

"When I became a United States senator I thought I had taken on grave responsibilities. Why, I didn't know what grave responsibilities were!"

WOMAN COULD HARDLY STAND

Because of Terrible Backache. Relieved by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered from displacement and inflammation, and had such pains in my sides, and terrible backache so that I could hardly stand. I took six bottles of Lydia E. Pinkham's Vegetable Compound, and now I can do any amount of work, sleep good, eat good, and don't have a bit of trouble. I recommend Lydia E. Pinkham's Vegetable Compound to every suffering womam."—Mrs. HARRY FISHER, 1625 Dounton St., Nicetown, Pa.

Another Woman's Case.

Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down, and backache, until I could hardly stand and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I work in a factory all day long besides doing my housework so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. ABEL LAWSON, 126 Lippitt St., Providence, R.I.

Danger Signals to Women

are what one physician called backache, headache, nervousness, and the blues. In many cases they are symptoms of some female derangement or an inflammatory, ulcerative condition, which may be overcome by taking Lydia E. Pinkham's Vegetable Compound. Thousands of American women willingly testify to its virtue.

DAISY FLY KILLER placed anywhere, attracts and kills all flies. Neat, clean, ornamental, convenient, cheap. Lasts all season. Made of metal, can't spill or tip over; will not soil or injure anything. Guaranteed effective. Sold by dealers, or 6 sent by express prepaid for $1.

All Blood Disorders Quickly Driven Away

Astonishing Results With the Greatest Blood Purifier Ever Discovered.

Strength, Power, Accomplishment are all Typified in S. S. S.

Some blood disorders become deeply rooted in the glands and tissues, and the mistake is made of resorting to drastic drugs. These only aggravate by causing other and worse troubles. A host of people know this to be true. They know from painful experience.

To get right down into where the blood is vitiated requires S. S. S. the greatest blood purifier ever discovered.

This remarkable remedy contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment and the medicinal elements of this matchless blood purifier are just as essential to well balanced-health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kindred troubles, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence.

Then, too, S. S. S. has such specific stimulation on these local cells as to preserve their mutual welfare and a proper relative assistance to each other.

In a very brief time S. S. S. has the reconstructive process so under control that remarkable changes are obseved. All eruptive places heal, mysterious pains and aches have disappeared, and from head to foot there is a conscious sensation of renewed health.

From the fact that S. S. S. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Ask for S. S. S. and insist upon having it. And if you desire skillful advice upon any matter concerning the blood and skin write to The Swift Specific Co., 205 Swift Bldg, Atlanta, Ga. Do not allow some zealous clerk to larrup the atmosphere in eloquence over something "Just as good" as S. S. S. Beware of all counterfeits.

PUTNAM FADELESS DYES

Color more goods faster and brighter colors than any other dye. Every package guaranteed to color Silk, Wool, Cotton and Mixed Goods at one boiling. 10 cents a package. Write for free booklet "How to Dye and Mix Colors," calendar, blotters, etc. MONROE DRUG COMPANY, Department Z, Quincy, Illinois

MOTOR TRIPS
In A Comfortable Motor Truck
To Mt. Hamilton and return $1.35
To San Juan Baptisto Mission $1.35
Big Basin Park, return by way of Santa Cruz Trees, a two day trip. Wonderful scenery.
A moonlight ride to Stanford. See the valley Beautiful.
Pleasure trips, picnics and camping trips planned
RUTH E. HOAG,
Conductor.

Hobart Pasha.

The Turkish navy of the past owed almost its existence to an English sailor, Hobart Pasha, a bold buccaneer of the Elizabethan period, who by some strange perverseness of fate was born into the Victorian age. He retired from the English navy in 1863, and during the American war he became a blockade runner with hairbreadth escapes innumerable. After the war he entered the Turkish service, suppressed the Cretan rebellion by intercepting the supplies from Greece and then reorganized the Turkish fleet so well that the sultan appointed him marshal of the empire. Hobart Pasha also enjoyed the unique distinction of being twice struck off the British navy list for breach of the foreign enlistment act and twice reinstated there. And he died in 1886 with the rank of a British vice admiral.—London Globe.

Prudence and Shaving.

The classic case of a king who knew better than to let anybody else shave him is that of Dionysius the Elder, tyrant of Syracuse, who appears to have been unable to shave himself, for he is said to have resorted to the uncomfortable device of singeing off his beard with hot walnut shells. We may suspect that Napoleon's was another case of the kind. Rogers asked Talleyrand whether Napoleon shaved himself. "Yes," replied Talleyrand; "one born to be a king has some one to shave him, but they who acquire kingdoms shave themselves." That way of putting it pleasantly emphasizes the practical superiority of the parvenu to the helpless spoiled child of heredity, but prudence probably entered into the matter also, if Talleyrand's statement was correct.—London Standard.

Noyon Cathedral.

Noyon, in France, held peculiar attractions for Robert Louis Stevenson because of its cathedral, where he heard the "Miserere" sung one summer afternoon. Of the place itself he wrote: "It was but a stack of brown roofs at the best, where, I believe, people live very reputably in a quiet way, but the shadow of the church falls upon it when the sun is low, and the five bells are heard in all quarters telling that the organ has begun. If ever I join the church of Rome I shall stipulate to be bishop of Noyon on the Oise."—Pall Mall Gazette.

An Idle Curiosity.

Teacher—The sentence in the lesson is, "He went there out of idle curiosity." How would you define "idle curiosity?" Give me an instance, if one occurs to you.

Bad Boy—Well, I think a mummy is about as idle a curiosity as any I know of, ma'am.—Exchange.

Earthquakes.

An eminent authority on earthquakes believes that any great displacement of the crust of the earth makes the earth to rotate unevenly, or "wobble," and that that unevenness of motion has to be neutralized by displacements in other regions.—Exchange.

Nought.

"I tell you what, sir," said a Yankee of his opponent, "that man don't amount to a sum in arithmetic. Add him up, and there is nothing to carry."—Christian Register.

An Exception.

"How did he get his start?"

"His uncle left him some money."

"Humph! That's usually a young man's finish."—Detroit Free Press.

Grammar School Commencement

The following program was given at the Annual 8th Grade Commencement Exercises held at the Campbell High School last evening.

Invocation	Rev. Geo. E. Atkinson
March	Edwyna Page
Cantata	6th, 7th, 8th Grades
Piano Solo	Lucile Strong
President's Remarks	Wm. Lloyd
Address	Mr. L. D. Bohnett
Class Song	Class
Class Will	Ruth Stewart
Prophecy	Irene Sawyer
Presentation of Diplomas	Prin. W. B. Kammerer
Benediction	Rev. W. H. Lloyd

Those who received their diplomas at this time were: Ruth Stewart, Irene Sawyer, Earl Page, Jean Buckley, Helen Denbigh, Maude Houlihan, Henriette Vander Dussen, Laura Blaine, Charles Hancock, Rose Wallace, Lloyd Clendening, Hazel Dunham and William Lloyd.

Local and Personal

W. T. Alexander went to San Francisco yesterday on business.

Mr. and Mrs. Henry Griffin went to the Jewel City yesterday to see the big show.

Mr. and Mrs. E. R. Kennedy will entertain a party of friends at rook this evening.

P. T. Dodson and daughter, Miss Lela, spent the week-end viewing the Exposition sights.

The monthly birthday social will be held at the Congregational church parlors this evening.

Mr. R. K. Thomas is getting the coast fever again since he heard that the salmon are running.

Miss Emma Swope spent the week-end at Camp Campbell the guest of Mr. and Mrs. Thos. Mendel.

Rev. Geo. E. Atkinson and little daughter were at Santa Cruz the first of the week on business.

"Proper Bait" Woodhull is enjoying the good salmon fishing at Santa Cruz and expects to make a record this time.

Mr. and Mrs. W. B. Kammerer will entertain the eighth grade pupils at their home on Harrison avenue this evening.

Mrs. J. D. Blaine and daughters, Laura, Margaret and Pauline, will occupy Camp Campbell next week while seeing the Fair.

Mrs. I. Preston and friend, Mrs. Mary Gilman, who is visiting here, went to San Francisco yesterday for two days of sight-seeing.

P. B. Payne and Robt. Densmore spent Sunday and Monday fishing on the Soquel and Lorenzo rivers. They reported fine luck but the fish small.

Lt. R. H. Kelley, U. S. A., arrived Wednesday from Galveston, Texas, for a three week's visit with his mother-in-law, Mrs. Dilley, on San Tomas Road. Mr. Kelley has been transferred to the Oklahoma Camp and will go there after his visit.

One of the interesting features of Children's Day at the Congregational church last Sunday, was the passing through "The Golden Gate of Faithfulness" by those who were present every Sunday since last Children's Day. Eleven in all had this honor this year.

Geo. E. Hyde & Co. are busy making preparations for the coming fruit season which will begin about the first week in July. They have secured an expert foreman who has had 16 years' experience and has had entire charge of one of the largest canneries in this valley, to take charge of their canning department.

One of the biggest gatherings on the coast this year will be the F. E. & C. U. of America picnic at Morgan Hill, Saturday, June 19. One of the principal speakers of the day will be L. C. Crow, state president of the Washington organization and member of the national executive committee. A big delegation is planning to go over from Campbell and vicinity.

The J. C. Ainsley Packing Co. will be pleased to receive applications for work from women helpers as early as possible, for the season commencing early in July.

Those in town having rooms or other accomodations for rent, are invited to leave particulars at the office of the Company.

Alumni Reunion Held

The annual re-union and reception of the Campbell Union High School alumni association held Friday evening was one most enjoyable in the history of the organization. Of late the reunions have been held at Congress Springs but for a change which will probably become permanent on account of its manifest popularity this was held at the I. O. O. F. hall.

Frank Stepka, '14, president of the association and his classmates had charge of the affair and all honor and glory be theirs. The program as given follows:

Piano solo, Mrs. Avenel Ross, '05; reading, Miss Juliette Billiou, '14; violin solo, Calvin Bohnett, '07; vocal solo, Miss Charlotte Davis, '02; address, L. D. Bohnett, '02; vocal solo, Edward Yocco, '14; piano solo, Mrs. Avenel Ross, '05.

Following the program the election of officers was held. President, Miss Alice Joy, '03; vice-president, Mrs. Bessie Palmer Kennedy, '10; secretary-treasurer, Miss Marion Duncan, '11. Carl Scholz was "not foolin," so his declination was accepted as final.

In answer to the call of the president for representatives of each class, most classes had one or more members present. Chas. Beardsley, the one member of the first class '01 was unable to be present.

The remainder of the evening was spent in dancing and visiting around the refreshment tables where the '14 class acted as host.

About seventy of the former graduates and the present class were present beside a number of invited guests. So well pleased with the success of the evening, everyone declared for a repetition next year to which a larger attendance will be expected.

Glimpses and Interpretations

The Panama-Pacific International Exposition has been institutied to commemorate the building and completion of the Panama Canal.

This beautiful exposition city has been called by various names; the Jewel City, the Dome City, the Prophetic city, the Dream city and many others more or less appropriate. As for myself, I would call it the city of Hope. The compelling idea in the origin and development of the exposition has been largely one of sentiment.

The Architect, the Colorist, the Sculptor and the landscape Engineer have worked as one man to create a grand scheme of harmony.

This has been accomplished by the unit plan. The octave as we find it in music and in color and the significance of certain numbers as they appear in Nature, in Philosophy and the old Hebrew writings have been employed most interestingly in presenting a new era to the world. The thought may be termed sentimental or even mystical, but the poet, the artist, the sculptor, idealist tho he be, is, after all, most practical. When the full import of the Cresent City is realized, it will appear as a most beautiful and rhythmic poem.

In the plans for the grounds and buildings the numbers three, eight and twelve have been emphasized. The builders first divided the grounds into three distinct parts,—one is given to the Exposition proper, another to state and national exhibits and still another to amusements and special attractions. The main group of buildings is composed of twelve correlated structures,—all but one being exhibit palaces: that one is Festival Hall, for the presentation of the finer art of Music.

Eight of these twelve structures constitute an inner group,—all of similar design and arranged in the form of a parallelagram, each with a copper-colored dome. It is patterned after an ancient oriental city, walled in and sheltering its its inner courts. These courts are three in number and to give them an added touch of nature, they are called the Court of the Universe, the Court of the Four Seasons and the Court of Abundance.

Concerning the use of numbers,—Three denotes "Completeness or Constitutional Completion," as for instance, we say "Earth, Sea and Sky" as comprehending all things physical, or "Body, Soul and Spirit" as the elements of Man. The number eight always signifies "The New Beginning." It marks, not only the end of the old cycle or dispensation but more emphatically *the beginning of the new.*

It is the octave as shown by nature, and the Christ number as employed in the scriptures.

To impress this feature upon the mind of the observer, the exposition artists have used eight colors only in their unique color scheme. Again, the central architectural feature of the whole Exposition is the Tower of Jewels. It is constructed on the plan of the old Tower of Babel, with seven distinct receding sections,—holding aloft its octave in the form of a sphere or globe. The globe is encircled by a band representing the twelve signs of the zodiac. Just as this earlier tower marked the dawn of a new era in the then known world,—the dispersion of a centralized people to form many nations and tongues,—so this later tower marks the beginning of an era which will unite all the nations of the earth under the banner of justice and peace. The number *twelve* stands for "Governmental Perfection" as in the Old and New Testament history we find the twelve tribes of Israel; the twelve disciples and the twelve foundation stones of the New Jerusalem. The twelve main buildings are thus made to represent the establishment of a new order of social life in the governments of the world. Just as the Panama Canal is the important physical achievement destined to bring the Orient and Occident into greater unity of life and purpose, so this magic city by the Golden Gate offers its suggestion to the nations of world that in this year 1915 we are closing forever the cycle of the past, a past of war, intemperance and greed and opening the portals to the New Beyond, where justice, equity and peace shall prevail in the new Internationalism. While the great nations of the eastern hemisphere are fighting "The most titanic war of world-history," the western hemisphere is celebrating the completion of the greatest achievement for peace,—the Panama Canal.

C. H. WHITMAN.

Hyde Residence Park

The cement sidewalk and curb in Hyde Residence Park and also the walk and curb leading to the park from Rincon Avenue to Alice Avenue have been completed.

Rights of way have been secured from property owners in Sunnyside for the continuation of First Street from Alice Avenue to Sunnyside Avenue. Work of grading, gravelling and laying concrete sidewalk and curbs will be done soon, making a continuous sidewalk and curb from Rincon Avenue to Sunnyside.

Fountain Pens for graduates—Smith.

NOTICE—School Bond Election Notice

Notice is hereby given to the electors of Campbell School District, in the County of Santa Clara, and State of California, that, in accordance with the provisions of the Political Code of the State of California, as set forth in Section 1880, to and including Section 1888 of said Code, an election will be held on the 19th day of June, A. D. 1915, at the Public School House in said Campbell School District, at which time will be submitted to the electors of said District the question of issuing the bonds of the District and selling the same, for the purpose of raising money for purchasing a school lot, for building a new school building, for making alterations to the present school building, for supplying both said school buildings with furniture and necessary apparatus, and for improving the school grounds.

The polls will be opened and the election held at the school house in said Campbell School District, on the 19th day of June, 1915, and the polls will be open from 8 o'clock A. M. of said day until 6 o'clock P. M. of said day. A. J. Farley will act as Inspector and O. E. Atkinson and Leona Billiou will act as Judges of said election to conduct the same.

The amount of bonds to be issued is Twenty-five Thousand dollars, of the denomination of one thousand dollars each, and to bear interest at the rate of 5½ per cent per annum, payable semi-annually.

Said bonds are to be numbered consecutively 1 to 25, inclusive, and are to run, mature and be payable as follows, to-wit:

Bonds numbers 1 and 2, one year from date of issuance.

Bonds numbers 3 and 4, two years from date of issuance.

Bonds numbers 5 and 6, three years from date of issuance.

Bonds numbers 7 and 8, four years from date of issuance.

Bonds numbers 9 and 10, five years from date of issuance.

Bonds numbers 11 and 12, six years from date of issuance.

Bonds numbers 13 and 14, seven years from date of issuance.

Bonds numbers 15 and 16, eight years from date of issuance.

Bonds numbers 17 and 18, nine years from date of issuance.

Bonds numbers 19 and 20, ten years from date of issuance.

Bonds numbers 21 and 22, eleven years from date of issuance.

Bonds Numbers 23 and 24, twelve years from date of issuance.

Bond number 25, thirteen years from date of issuance.

Said election will be held in conformity with the provisions of the Political Code of California governing such elections.

Dated May 26, 1915.

MRS. B. P. PAGE,
C. BERRY,
JOHN D. BLAINE,
Board of Trustees of Campbell School District.

Methodist Church Notes

The members of the local auxiliary of the W. F. M. S. sent fifty-four beautiful bouquets to the Woman's Congress of Missions in San Francisco this week.

Members of the league can find their places in the different departments by consulting the list of committees prepared by the secretary and posted in the east vestibule of the church.

The official board is making a determined effort to secure the payment of all outstanding pledges on the building fund of the church before September. A number have paid up during the last few months and a majority of the others have given assurances that they will make provision for payment at an early date.

The pastor's subject Sunday morning will be "Christian Constancy, A Vacation Message." It would surprise him some to see every member of the church present, but the shock wouldn't kill him. In fact, it would probably do him good—and the congregation.

The baccalaureate sermon to the graduating class of the High School will be delivered this year at the Congregational church by the pastor of that church, our congregation uniting with them.

Miss Esther Smith, who is home for vacation, will be the leader of the league meeting Sunday evening at 6:30.

The Sunday-school board will meet Wednesday evening at 8:30.

The ladies of our aid society will entertain the ladies of the guild of the Congregational church in the lecture room Thursday afternoon from three to five o'clock. All the ladies of the congregation will be welcome as participants in this pleasant function.

Gophers Celebrate

The Minnesotan Picnic was a big success and every one present is glad he went. The barbecue proved a great drawing card about 300 attending. Ben Ortego and son of San Jose had charge of this choice part of the dinner and gained a greater reputation thereby. After the big dinner a short program was given which was thoroughly enjoyed. Miss Ross gave a piano selection and played for the state song. Mrs. Pew sang two pretty old time melodies, which were much appreciated. Mr. Blair and Mrs. Gillett gave short talks on Minnesota life. The newly elected officers are; President, W. B. Denhart; vice-president, J. E. Olds; secretary-treasurer, Miss Mary Lewis. The executive committee members are, Mrs. Gillett of Los Gatos, E. W. Conant of San Jose and O. S. Butts of Cupertino.

The treasurer reports $12 in the fund as a balance for the year.

Way of the Pessimist.

No doing anything with a pessimist. When you find a bright side for him he won't look at it for fear the light might blind him.—Atlanta Constitution.

Our Egg Crop.

American hens lay slightly over $300,000,000 worth of eggs a year—that is, every person eats on an average $3 worth.—Farm and Fireside.

NOTICE TO CREDITORS

Estate of Stella M. Parso, Deceased.

Notice is hereby given by the undersigned administrator of the estate of Stella M. Parso, deceased, to the creditors of and all persons having claims against the said deceased, to exhibit the same, with the necessary vouchers, within four months after the first publication of this Notice, to the said administrator at the office of L. D. Bohnett, Rooms 313-314 Bank of San Jose Building, in the City of San Jose, County of Santa Clara, State of California, where all business connected with said estate will be transacted.

San Jose, this 3rd day of June, A. D. 1915.

Geo. L. Parso,
Administrator of the estate of Stella M. Parso, Deceased.
L. D. Bohnett,
Attorney for said Administrator.

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Congregational Church

"The Friendly Church just around the Corner."

The theme for Sunday, June 13, "From Minimum to Maximum." Talk to the Boys and Girls as "Where would your house go?" C. E. at 6:30. Freeman Duncan, leader. At 7:30, the Annual Baccalaureate service for the Senior Class of the C. U. H. S. will be held. The address is by the Pastor on: "The Fine Art of Sailing On." Special music. Mr. Atkinson has written a Class Hymn and dedicated it to the class of 1915, which will be sung at the close of the address. Reserved seats for Seniors and Faculty. The Junior class will act as ushers and decorating committee for this service.

GEO. E. ATKINSON, Pastor.

The Flies' Revenge

Ten little flies
All in a line;
One got a swat!
Then there were.....

Nine little flies
Grimly sedate;
Licking their chops—
Swat! Then there were.....

Eight little flies
Raising some more—
Swat, swat! Swat, swat!
Then there were....

Four little flies
Colored green-blue;
Swat, swat! (Ain't it easy)
Then there were..

Two little flies
Dodged the civilian—
Early next day
There were a million!

—*Buffalo News.*
